

Division with Remainder

$$2 \overline{) 17} \quad Q = \underline{\quad} \quad R = \underline{\quad}$$

$$3 \overline{) 20} \quad Q = \underline{\quad} \quad R = \underline{\quad}$$

$$4 \overline{) 25} \quad Q = \underline{\quad} \quad R = \underline{\quad}$$

$$6 \overline{) 37} \quad Q = \underline{\quad} \quad R = \underline{\quad}$$

$$5 \overline{) 39} \quad Q = \underline{\quad} \quad R = \underline{\quad}$$

$$7 \overline{) 47} \quad Q = \underline{\quad} \quad R = \underline{\quad}$$

$$9 \overline{) 46} \quad Q = \underline{\quad} \quad R = \underline{\quad}$$

$$8 \overline{) 41} \quad Q = \underline{\quad} \quad R = \underline{\quad}$$

$$6 \overline{) 56} \quad Q = \underline{\quad} \quad R = \underline{\quad}$$

$$4 \overline{) 29} \quad Q = \underline{\quad} \quad R = \underline{\quad}$$
